If yes, describe how the Project would be impacted if these benefits were not provided. We compete for capital from our corporate headquarters. Increasing expenditures without a return on the investment spending makes us less competitive for limited dollars. Uncertainty from external impacts also makes us equally less competitive. The PILOT assistance is a significant factor in deciding whether to move forward.

Project Goals may include, but are not limited to, level of investment, job creation/retention (including salary ranges for new and retained positions), and sales tax generation goals. Goals will be determined on a case by case basis.
- 2) AIDA will ask the company to document the number of employees and company payroll, as well as baseline data for any additional Project Goals, at the time the project is induced. Project costs will be verified during the time of the project start-up and then as soon after project completion as feasible. Verification will consist of a certification by the companies’ accountant or engineer of the cost(s) of the project. The company will also be asked to provide a copy of their annual financial report/audit to AIDA at the close of the fiscal year(s) during which the project took place.
- 3) Annually, AIDA will ask the company to document the number of retained and/or created jobs and their salaries, as well as sales tax generation for retail and tourism projects. The attached form, which is subject to revision from time to time, will be used for this purpose. AIDA’s Acting Treasurer will be responsible for distributing the form to companies with PILOTs or other tax abatement programs no later than December 31st. All new PILOT agreements created after the effective date of this policy will include a reporting clause that will require the companies to return this form by January 31st or risk default. AIDA may also request a copy of the company’s NYS-45 with all individual identifying information redacted in order to verify reported employment levels.
- 4) A member of AIDA’s staff or board, or a representative of the Cayuga Economic Development Authority (CEDA) on behalf of AIDA, will conduct an annual site visit to each company with a PILOT agreement to see how the company is doing and the status of any improvements and progress toward achieving the Project Goals. The site visit will also allow the AIDA or CEDA representative to observe any new construction, discuss financial operation and performance shortfalls (if any), and to obtain a visual representation of employment levels.
- 5) The AIDA or CEDA representative conducting the site visit, in conjunction with the AIDA Assistant Treasurer, will prepare a report describing each company, its Project Goals, and the progress in achieving the Project Goals.
- 6) The Board of Directors will review the site visit reports and data relevant to Project Goals and compare them to the original agreed upon Project Goals. This will be done at regular meetings throughout the year as site visits are conducted and reports completed.
- 7) If a company has failed to achieve the proposed Project Goals, the AIDA or CEDA representative that conducted the visit, in conjunction with the AIDA Executive Director or Acting Treasurer if necessary, will be responsible for finding the reasons for the shortfall and presenting them to the Board. The Board will then determine whether to:
 - Work with the company in an effort to achieve the Project Goals
 - Give the company more time to achieve the Project Goals
 - Pursue recapture penalties
